Common FEI Assistance Requests and What to Do

- **FEI WITS will automatically 'lock' accounts that have no activity for 4 weeks.**
 - To avoid this auto lock, you can sign into FEI WITS every 3 weeks even you don't have a GPRA to enter.
 - If your account is locked and you request for it to be unlocked, you will have until 9pm the day it is unlocked to sign in, or it will auto lock again.
- **FEI WITS will disable an account if the login information is entered incorrectly 3 times.**
 - Entering the incorrect username is the number 1 cause of the account being disabled.
 - Your username will be sent via email from FEI WITS when the account is created.
 - The SOR team will **not** use your email address as your username.
 - When your account is created, you will receive an email from FEI WITS with a link to create a password and pin.
 - Your password and pin are case sensitive.
 - The SOR team does not have access to your password and pin.
 - If you use a web browser to save your login information, check that the browser has saved the correct information.
 - Many web browsers will save an email address as the username, which is incorrect.
 - Many web browsers do not save the correct password and/or pin when updated.
 - If you cannot recall your password or pin, you can select "Forgot Password?" on the login screen (this must be selected before the 3rd failed login attempt).
 - You will need to know your username and the answers to security questions you selected when creating your initial password and pin.
- **How to request assistance unlocking your account or enabling your account if it's been disabled.**
 - Email the SOR team: sor.gpras@dhhs.nc.gov
 - Explain that your account is lock, disabled or both and ask for assistance.
